

Mock Interview Session by Tata ELXSI

The Training and Placement Cell organized mock interview sessions in collaboration with Tata Elxsi for final-year students of the 2025–2026 batch. The sessions were conducted in a pooled manner, bringing together students from nearby engineering colleges and providing them with real-time interview exposure. This also gave an insight to all the students regarding the competitiveness of students from nearby institutions thereby motivating them to prepare well for placements.

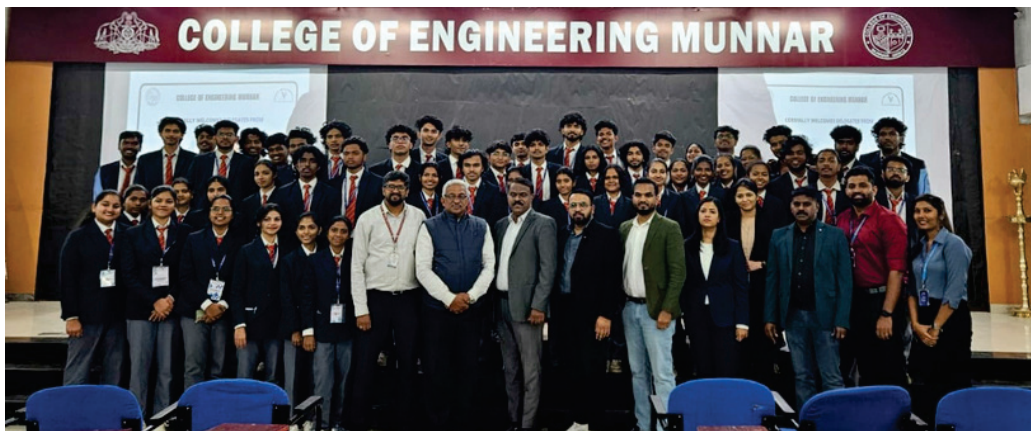

Campus Placement by UST

The Department of Training and Placement Cell hosted a campus placement drive by UST as an exclusive recruitment opportunity for students. The drive provided a focused platform for eligible candidates to showcase their skills and secure career opportunities with a leading industry organization. The pre placement talk by Global HR of UST Mr. Timi Abraham really motivated the students and provided them an insight on latest technology in market and how to prepare for the drive.

Pooled Campus Placement Drive by Cygnoz & AL-Imtedad

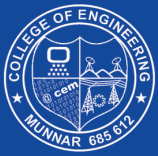

College of Engineering Munnar is well known for organizing pooled campus placement drives in the past and this time we were able to collaborate with 2 new companies one of which is head quartered at UAE. The Department of Training and Placement Cell conducted a pooled campus placement drive in association with Cygnoz and Al-Imtedad enabling participation of students from nearby institutions. These companies were looking for candidates with technical as well as managerial roles and around 200 students participated in the drive. Around 20+ Candidates were selected for the roles of BDA and many candidates have been shortlisted for technical roles for which project based assessments are going on for final selection.

Campus Placement Drive by VONNUE

The Department of Training and Placement Cell hosted an exclusive campus placement drive by Vonnue, a startup based in Wayanad and offering very good starting salary of 5-6 LPA. Unlike the other drives the recruitment procedure was entirely different with students put on machine testing for many hours. There were students who did the machine test for as long as 10 hours and it was a proud moment that a total of 10 students from our institution was selected for the next round.

TRAINING & PLACEMENT CELL COLLEGE OF ENGINEERING MUNNAR

MoU

College of Engineering Munnar signed MoUs with organizations including Infosys Springboard, ARCITE, and ICT Academy Kerala to enhance internships, trainings and placement opportunities, with further collaboration in progress with Nest Digital.

Students Recommended Through DWMS Portal for Learning & Training

All students of the College of Engineering Munnar were registered on the DWMS platform by KDISC/KKEM. We have around 6 mentors who are very active in this platform and have recommended students for over 300+ courses through the Talent Accelerator Program by KDISC, enabling continuous learning opportunities and improved access to job prospects.

Internship Through Internshala

All the students of College of Engineering Munnar were registered on the Internshala platform to explore internship opportunities and some of the students were benefited out of it with good internships.

NAME OF THE STUDENT	DEGREE (STREAM)	YEAR OF GRADUATION	ORGANIZATION NAME	PLACEMENT TYPE	SALARY/STIPEND	DATE OF SELECTION
Bipin B	NA(NA)	NA	Unessa Foundation	internship	Performance Based	21/02/2026
Bipin B	NA(NA)	NA	InAmigos Foundation	internship	₹2500-4500 /month	16/06/2025
Fidha Basheer	NA(NA)	NA	NayePankh Foundation	internship	₹1500-10000 lump sum	29/05/2025

We were also ranked 216 out of 800+ institutions across India for actively participating in Internshala Activities and getting internship opportunities for the students.

As of date we have obtained around 21 internships from internshala.

Infosys Springboard Summit

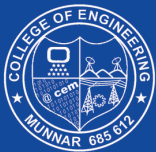

We are an active academic partner of Infosys Springboard and have actively involved in Faculty and Students Enablement program as per the MoU signed with them. We were recognized by Infosys for the active participation and was invited to attend the Infosys Springboard Summit held at Infosys Mysore Campus.

As part of the knowledge building and skilling we have enrolled around 26 students and 2 faculty members for the AWS Skill builder course which can be done free of cost in Infosys Springboard. The students are currently pursuing this course and will complete and get certified by end of this academic year.

One of our students was recently selected for a virtual internship with Infosys as a recognition of her active participation and completion of relevant courses in Infosys springboard platform.

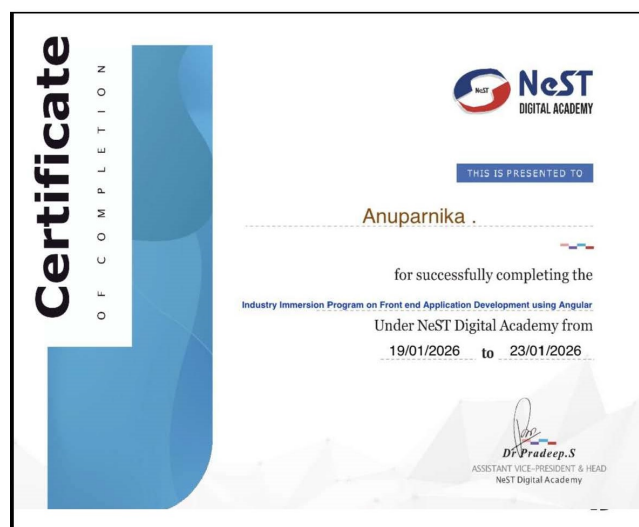

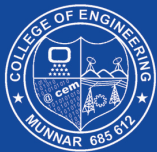

TRAINING & PLACEMENT CELL COLLEGE OF ENGINEERING MUNNAR

Industry Immersion Program- Nest Digital

As part of collaboration with Nest Digital an Industry Immersion Program was arranged for certain students who had to work at Nest Digital Campus for 1 week and thereafter complete a project based on the program to get certified. 16 of our students participated and completed the training for certification.
